

Innovation

Fenestration Testing Laboratory was founded with a vision to provide the industry with a superior service, modern technology and accurate testing. Continuously striving to expand our knowledge and progress with the industry, Fenestration Testing Laboratory is an active leader in several national committees and developing new standards for the industry. What originated as a dream, Fenestration Testing Laboratory has matured from the ground up, searching for fresh innovative ways to provide our clients with ground breaking testing techniques.

Established in 1994 in Hialeah, Florida, Fenestration Testing Laboratory originally provided service to only Fenestration manufacturers. Through the years, Fenestration Testing Laboratory has matured into a full service laboratory, providing testing not only to the fenestration industry, but additionally to builders, contractors, architects, engineers and numerous other trades; supplying in house and field testing, material testing, roof testing, acoustical testing, dynamic testing, glass certification and thermal simulation.

Milestones

Fenestration Testing Laboratory, Inc. has been a full-service provider of testing services, located in Medley Florida; the company's core competency is to provide testing services that meet the unique needs of our clients, producing return customers year after year. Fenestration Testing Laboratory offers testing specifically tailored for each individual project, catering to the necessities of our clients.

The company has continued along this path with great success. This led the company to move from its original 4000 square foot location to a significantly larger 17,000 square foot facility in 1996 and most recently into a 40,000 square foot free standing building in the heart of Miami. With the move, Fenestration Testing Laboratory was able to increase its capabilities, expanding our in house services. With these increased capabilities, Fenestration Testing Laboratory was able to increase its amount of business and scope of services. As a result, the company has been able to continue leveraging its industry expertise and core competencies to succeed and grow in the fenestration industry.

Future Endeavors

As a recognized leader in the fenestration industry, Fenestration Testing Laboratory continues to strive to offer fresh variety of testing services, as our accomplishments and goals attest as such, conveying this message by increasing our scope of accreditations and expanding our roots. With our industry expertise, talented and dedicated employees, Fenestration Testing Laboratory is poised and ready to meet the industry's increasingly complex and fast changing needs.
